

# BVD Membership Plan

Bradburn Village Dentistry

## A Completely New Concept in Dental Coverage

The BVD Membership Plan works similar to many dental plans on the market. You pay a monthly membership fee for benefit coverage on your dental expenses. The plan is designed to cover preventive services such as cleanings and oral exams. This provides coverage that can be budgeted at an affordable monthly expense while receiving excellent benefits for your higher cost dental service.

BVD Membership Plan and works with you, the patient, directly to make all dental service decisions. There is no need to contact a 3rd party company for information. All questions regarding plan coverage, verifying benefits, changing coverage types, or any other questions should be directed to us here at Bradburn Village Dentistry.

All dental services covered by the BVD Membership Plan are designed to be done at our office here at Bradburn Village Dentistry. Dr. Winter or Dr. Stamm may refer a patient to a specialist who performs other services, that the patient may need, which is not covered by the Plan. Bradburn Village Dentistry has a complete listing of highly recommended specialists. If asked, most people would agree that decisions about dentistry are best made between the patient and their dentist, without a third-party company's involvement.

The BVD Membership Plan offered by Bradburn Village Dentistry is different! It has been designed to provide you and your family with affordable preventive dental coverage, your dentist owns and administers.

Not only does BVD Plan provide excellent coverage on preventive dentistry, the plan offers good coverage on major dental procedures like fillings, crowns, dentures, bridges, and cosmetic dentistry.

Since your BVD Membership Plan is not administered by a third party insurance company, all the decisions regarding your dental treatment may be decided by you and your dentist – Dr. Eric Winter along with Dr. Brian Oliveira without the need for claim forms, approvals, deductibles, or waiting periods.
